New KUHN Knight RA 125 & 130 Reel Auggie® Reel Mixers

Two new models have been added to the RA 100 Series Reel Auggie® mixers – The RA 125 & RA 130. These 250 and 300 cubic foot machines continue the tradition of outstanding durability and performance, with proven features that stand out from the competition. After many requests from farmers like you, this capacity range of mixers is now available with the standard reel or the patented Helix reel. The Helix reel, with its open-concept design, offers faster, more consistent mixing and improved load leveling with any ration and excels mixing rations with high percentages of byproducts and/or roughages.

Strengthened body and drive components provide superior dependability and long life. An easy-access front oil bath keeps drive chains lubricated and ensures a long drive life. With a low horsepower requirement, the RA 100 Helix mixers use less fuel than other mixer types for more economical operation. The RA 125 and RA 130 are available in trailer, truck and stationary configurations.

Kuhn North America, Inc., of Brodhead, Wisconsin, is a leading innovator in agricultural and industrial equipment, specializing in spreaders, mixers, hay tools, and tillage tools. KUHN, KUHN Knight, and KUHN Krause products are sold by farm equipment dealers throughout the United States, Canada, and many other countries.
