### **New KUHN Knight VT 200 Series Vertical Maxx® Twin-Auger Mixers**

KUHN Knight VT 200 Series twin-auger Vertical Maxx® mixers are ideal for small to medium dairy and beef producers looking to put a quality ration in front of their animals. The VT 200 Series features multiple improvements that will provide enhanced performance and longer, more reliable service.

New updates to the VT 200 Series mid-size mixers include updated front conveyors, better door-to-floor sealing, heavier high-wear auger flighting and EZ-mate scale system. The VT 200 Series mixers range in capacity from 320 – 760 ft<sup>3</sup>, are available in trailer and truck configurations. Multiple configurations, single- or 2-speed drive options, along with multiple discharge options, allow machines to be tailored to every feeding operation's needs.

Kuhn North America, Inc., of Brodhead, Wisconsin, is a leading innovator in agricultural and industrial equipment, specializing in spreaders, mixers, hay tools, and tillage tools. KUHN, KUHN Knight, and KUHN Krause products are sold by farm equipment dealers throughout the United States, Canada, and many other countries.
