KUHN 9600 Folding Grain Drill

Kuhn North America proudly introduces the KUHN 9600 folding grain drill, a high-efficiency solution built for durability and designed to help farmers seed more acres with less downtime. Available in 30' (9.1 m) and 40' (12.1 m) working widths, the KUHN 9600 offers flexible configuration options to suit a wide range of operational needs. Whether you're managing large acreage or aiming to streamline your seeding process, the KUHN 9600 delivers the capacity, durability and adaptability your operation demands.

With one of the largest seed capacities in its class, the 9600 features a robust, all-steel welded seed tank that delivers exceptional durability. Its impressive 3.43 bu/ft (396.6 L/m) capacity means more time seeding and less time refilling, keeping farmers in the field longer and improving overall productivity.

This grain drill is ideal for planting small grains and cover crops in both minimum and conventional tillage systems. Farmers can choose from 6", 7.5" or 10" (15.2, 19.1 or 25.4 cm) row spacing to match specific crop needs and optimize seed placement for maximum yield potential.

Precision seeding is simple with two easy-to-use controls for quick, accurate seed rate adjustments—no chains or gears required. The KUHN Helica meter's spiraled flutes deliver consistent seed flow, while smooth drop tubes and a built-in agitator prevent bunching and bridging for even distribution across the drill width. Hydraulic downforce adapts to changing field conditions to maintain uniform seed depth and the CrossFlex™ system allows each opener to follow the terrain independently for precise placement.

KUHN 9600 Folding Grain Drills are now available through authorized KUHN dealers across North America. To locate a dealer or learn more about the 9600 visit our website: www.kuhn.com.

Kuhn North America, Inc., of Brodhead, Wisconsin, is a leading innovator in agricultural and industrial equipment. KUHN offers a broad range of hay and forage, livestock, and crop production tools, as well as landscape and road maintenance equipment. KUHN, KUHN Knight and KUHN Krause products are sold by farm equipment dealers throughout the United States, Canada and many other countries.
