New KUHN Knight RC 300 Series Commercial Reel Mixers

The new KUHN Knight RC 300 Series is the latest advancement in KUHN mixer technology, building on a long-standing reputation for heavy-duty performance and exceptional quality mixing with low horsepower requirements. With capacities from 500 to 950 ft³, these mixers offer the high-quality mixing producers expect, now enhanced with upgrades that improve durability, simplify maintenance and enhance operator convenience. Available in trailer, truck and stationary models, the RC 300 Series is built to withstand demanding use. Well-suited for dairies, feedlots and a wide range of industrial feeding environments, it delivers consistent, reliable results across diverse applications, helping producers meet today's challenges with confidence.

The RC 300 Series continues to feature KUHN's patented Helix® Reel, the only open-center reel on the market, delivering smooth feed flow and consistent mixing for rations with high roughage or distillers grains. This efficient reel-and-auger system reduces power draw, saving fuel and lowering horsepower requirements without sacrificing mix quality.

New enhancements include improved wiper design, upgraded truck drive components, refined hydrostatic controls, and better hose and scale management on trailer models. Important mixer parts have been improved based on years of experience and so have truck mounting features to further boost reliability and ease of service. Expanded options such as trailer fenders, trailer brakes, stainless steel doors and additional conveyor offerings provide flexibility for diverse feeding operations.

KUHN Knight RC 300 Series Commercial Reel Mixers are now available through authorized KUHN dealers across North America. To locate a dealer or learn more about the RC 300 series visit our website: www.kuhn.com.

Kuhn North America, Inc., of Brodhead, Wisconsin, is a leading innovator in agricultural and industrial equipment. KUHN offers a broad range of hay and forage, livestock, and crop production tools, as well as landscape and road maintenance equipment. KUHN, KUHN Knight and KUHN Krause products are sold by farm equipment dealers throughout the United States, Canada and many other countries.
